**ADVANCED SKIN TREATMENTS**

**VAGINAL REJUVENATION**

FemTouch™ is a painfree, innovative CO2 laser treatment which improves dryness, leaky bladder and may improve libido. Femtouch also minimizes vaginal issues such as itching, burning and painful sexual intercourse. Dramatically improves feminine health and wellbeing without pain or downtime.

**MICRONEEDLING + PRP**

PRP medical treatments are extremely popular due to the use of Platelet Rich Plasma and our expertly trained staff of medical micro needling provid ers. With little discomfort and downtime, patients can reduce skin issues like acne scarring, stretch marks and fine lines and wrinkles.

**INJECTABLES & FILLERS**

**BOTOX® / DYSPORT®**

Reduce and soften wrinkles with Botox® and Dysport® injections. Most frequently used to treat frown lines, forehead wrinkles and crow’s feet. Injections are also effective for treatment of lines around the mouth and neck. You can have a smoother, more relaxed appearance in minutes!

**COOLSCULPTING**

CoolSculpting treatments target fat cells and permanently eliminate them non-invasively. It is a state of the art treatment that has received worldwide recognition and praise. It is the fastest, easiest and least invasive option available today.

**JUVEDERM® FAMILY OF DERMAL FILLERS**

Smooth away wrinkles and folds, and say goodbye to smile and marionette lines! Dermal Fillers provide instant and long lasting wrinkle correction and can increase fullness and definition of the lips as well as fill scars.

LASER BODY TREATMENTS

LASER HAIR RE-GROWTH

Low Level Laser Therapy is a nonsurgical treatment for men and women experiencing hair loss. The low level lasers are called “soft” or “cold” lasers since they do not emit heat, sound, or vibration. Unlike surgical lasers that either vaporize or burn tissue, low level lasers do not generate heat or cause tissue injury.

LASER TATTOO REMOVAL

We proudly use two different lasers to make sure that we always use the optimal settings and technology to safely and quickly remove your tattoo, regardless of the color. We have treated thousands of patients and look forward to helping you remove your tattoo.

SPIDER VEINS

Spider veins are tiny blood vessels underneath the skin’s surface. They tend to be purple in color and most commonly develop on the face and legs. Laser technology is the most effective method available to eliminate spider veins permanently.

PAINLESS LASER HAIR REMOVAL
