Laser hair removal has never been so much fun!

New Laser Hair Removal Device! Splendor X: Safest, Fastest, Most Effective! Only at Infinity.

We're proud to announce that we now have the world renown Splendor X laser hair removal system!

The Splendor X removes hair in half the treatment time as other systems, is safe on ALL skin-types and is very comfortable.

Give us a call at (661)259-8100 and we'll be happy to answer any question that you have.

How does it work?

SPLENDOR X technology

Laser hair removal uses a laser light energy with a specific wavelength. During treatment, lasers emit energy in the form of light onto the skin. The melanin in the hair absorbs this energy and converts it into heat which then destroys the hair follicles to prevent or stop future growth.

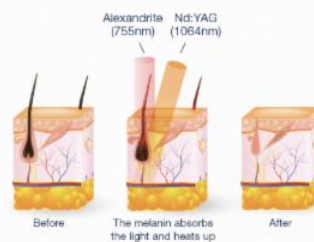

BLEND X technology harnesses the power of two wavelengths for greater effectiveness for hair-free skin.

The treatment

Treatment is extremely comfortable, safe and quick, with some patients noticing improvement after just one treatment.
